

# INTERFRATERNITY COUNCIL

## WASHINGTON STATE UNIVERSITY

### **Formal Recruitment Update**

July 18, 2020

FOR IMMEDIATE RELEASE

**PULLMAN, Wash.** - In the best interest of our community's safety here at Washington State University, the Interfraternity Council has elected to conduct Formal Recruitment in its entirety through a virtual platform. There is no finalized plan for Bid Day; however, decisions on future plans will be released throughout the ensuring weeks.

This announcement is made to ensure the decision made by the Interfraternity Council is communicated early enough to allow all students and organizations time to prepare as we prioritize the health of our community members.

A fraternal experience often creates and fosters the most beloved memories of one's undergraduate years. The Interfraternity Council strongly encourages those looking to join a fraternity to go through the Formal Recruitment process. We are confident in overcoming these obstacles to offer a meaningful recruitment experience for our potential new members.

More information and updates will be released in the coming weeks as well as delivered to registered potential new members via email.
